

2025-2026 Association Dues Information

How are dues computed?

Dues are based on your salary, HCEA unit, and whether you are a full or part-time employee. The total dues per year include HCEA, MSEA, and NEA dues, but will only be shown as a HCEA dues deduction on your paycheck stub. The chart below shows the current combined dues per year and per pay, and dues will be automatically adjusted if your salary or PT/FT status changes. Annual dues are subject to periodic changes by their governing bodies. Dues deductions continue from year to year unless the member revokes the authorization as specified in their negotiated agreement.
